## EDUCATION

**Athens University of Economics & Business, Athens, Greece — BSc Computer Science**

12/2014 - 09/2020

## EXPERIENCE

**Agenso - Environmental & Agricultural Solutions Athens, Greece — Software Engineer**

10/2020 - Present

- Developed web & software applications using Laravel, VueJS, ML libraries and implementations of homemade algorithms. Constantly benchmarking said algorithms to improve performance (up to 150% in some cases). [Python/ PHP/ Laravel / VueJS / MySQL ]
- Configured linux servers to run various applications, including an MQTT implementation to interact securely with 800 remote arduinos. [Server configuration/ Networking/IoT]
- Orchestrated communication between Docker containers for various applications [Docker]

**Hellenic Armed Forces, Chios & Athens, Greece — Programmer**

9/2019 - 07/2020

- Automated internal processes with python/bash scripts and created interfaces for non-technically inclined officers. Sped up manual tasks by 50%, while completely removing human interaction in some cases. [Python / Bash / Javascript]
- Upgraded interface of the historical archives databases with additional filtering & new features (bulk downloads, zip/rar extraction etc.). [Java / SQL]
- Set up & maintenance of intranets, networks & server infrastructure. [Networking]

**GNT Information Systems S.A., Athens, Greece — Software Engineer**

02/2019 - 10/2019

- Developed & maintained Interactive Voice Response (IVR) systems for corporate clients using agile/SCRUM methodologies. [Java / agile / PostgreSQL ]
- Added new features & fixed system bugs . Sped up the testing process up to 300% by revamping our local testing systems, using mock data, bash pipelines & automations, and mirroring web services. [Python / Bash / WS / SoapUI / Java]
- Collaborated with remote teams for pre-release QA. Created comprehensive and structured test plants and cases. Identified, recorded and documented system bugs. [ MySQL / WS / Postman ]

## PROGRAMMING LANGUAGES

Python, Java, Java EE, PHP, Javascript  
MySQL, Sqlite, PostgreSQL

## TECHNOLOGIES/ FRAMEWORKS

AWS, Docker, Jenkins, Laravel, VueJS, Unit Testing, HTML, CSS, Bootstrap, Git, Linux, Bash, Jira

## CERTIFICATIONS

DevOps Academy - Code.Hub  
Athens, Greece 6/21

## LANGUAGES

Greek(native), English(fluent), Polish(fluent), Spanish(intermediate)

## INTERESTS

Music (Guitar, folk instruments ), books, board games
